We are members of

Flowers from the Farm

We grow a number of varieties of seasonal flowers and foliage to use in our designs.

Working with seasonal flowers, our cutting garden provides the perfect partner for turning your event and wedding vision into reality, these are used along with flowers sourced from our trusted local suppliers.

We are fortunate to have space to grow and care for a range of foliage and flowers that will become part of your special occasion.

A truly personal touch with flowers grown by us.

Locally grown flowers not only supports UK flower farmers, but also helps to reduce your carbon footprint and brings the sights and scents of the season into your home.
