Choosing your table flowers

ROUND GUEST TABLES

A trio or set of five bud vases creates an easy, layered centre. Choose a Signature Urn for more height and impact.

LONG TABLES

Repeat bud-vase groups along the table for a natural rhythm, or mix clusters and urns for a fuller look.

CEREMONY TO TOP TABLE

A long and low design can move from the ceremony table to the top table, giving your flowers a second moment.

AISLES & PEW ENDS

Meadows and small posies soften the ceremony space and can often be repurposed later in the day.

Unsure what works best? Use your venue layout and table shape to guide the quantities on your order form.
